TechEra Engineering (India) Limited Secures Purchase Orders worth ₹8.63 Crore for Space Launch Vehicle Ground Support Equipment

Pune, November 24, 2026

TechEra Engineering (India) Limited has received six Purchase Orders from a South India-based private space launch vehicle company for the manufacture and supply of ground support equipment (GSE) structures for its launch vehicle programme.

The orders cover precision-fabricated and machined structural assemblies, including mounting and parking frames, beam assemblies, a weldment frame sub-assembly with adapter blocks and load distribution beams, and spacer assemblies. The combined order value is approximately ₹8.63 crore (INR 8,62,58,000) inclusive of GST, with a basic order value of approximately ₹7.31 crore. Deliveries are scheduled by February 2027.

The assemblies will be manufactured at TechEra's facility in Pune, covering raw material procurement, precision machining, inspection and dispatch, under the customer's stage-wise Quality Assurance Plan and final quality clearance.

Management Commentary

“These orders extend our aerospace engineering capabilities into India's fast-growing private space sector. Launch vehicle ground support equipment demands the same precision, traceability and on-time execution that we deliver to our aerospace and defence customers. The orders broaden our customer base and open a new, high-potential vertical for TechEra.”

About TEIL

TechEra Engineering (India) Limited is a specialized precision engineering company serving India's Aerospace and Defence ecosystem. Established in 2018, the Company focuses on building indigenous, high-precision manufacturing capabilities aligned with the national initiatives of Make in India and Atmanirbhar Bharat.

TechEra delivers end-to-end engineering solutions across Aerospace & Defence tooling, precision manufacturing of critical components and sub-assemblies, MRO and ground support tooling, and turnkey automation solutions for technology-intensive and quality-critical applications.

The Company operates in compliance with globally recognised quality systems and is certified to AS9100D:2018 and ISO 9001:2015, underscoring its commitment to stringent quality, process discipline and industry standards.
