Dear Sir,

Sub: Intimation regarding Letter of Award for supply of Round-the-Clock (RTC) Power.

Ref: Disclosure pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We wish to inform you that Powerpulse Trading Solutions Limited ("PTSL"), a wholly-owned subsidiary of the Company has received a Letter of Award ("**LoA**") from West Bengal State Electricity Distribution Co. Limited ("**WBSEDCL**") for supply of 1750 MW with 750 MW Greenshoe (option to be exercised by WBSEDCL at a later date) RE RTC power for a period of 25 years through competitive bidding process from Scheduled Commencement Date of Supply.

In this connection, the following documents are enclosed –

1. Media Release on the subject, "**Adani Energy Solutions receives LOA for 2500 MW renewable round-the-clock power supply to WBSEDCL**" as **Annexure A**.

2. The details, as required under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI Master Circular bearing reference number HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026, is attached herewith as **Annexure B**.

You are requested to take the same on your record.

Yours faithfully,
For **Adani Energy Solutions Limited**

ANNEXURE “A”

Media Release

Adani Energy Solutions receives LOA for 2500 MW renewable round-the-clock power supply to WBSEDCL

Ahmedabad, 21st November 2026: Adani Energy Solutions Ltd. (AESL) today said its wholly owned subsidiary Powerpulse Trading Solutions Ltd. (PTSL), has received a Letter of Award (LoA) from West Bengal State Electricity Distribution Co. Ltd. (WBSEDCL) for supply of 1,750 MW of Renewable Energy Round-the-Clock (RE-RTC) power for a period of 25 years. The LoA provides a 750 MW greenshoe option, which upon exercising, would take the aggregate contracted capacity to 2,500 MW.

The award follows a competitive bidding process in which PTSL emerged as the successful bidder after the e-reverse auction. Power Supply is scheduled to commence from 1st July 2028 for 1750 MW capacity and from 1st Apr 2029 for 750 MW, once greenshoe option is exercised.

“Round-the-clock renewable power will be critical to India’s energy transition, combining the sustainability of renewables and optimising transmission systems usage. This significant order win strengthens our commitment to deliver scalable energy solutions, and allows us to partner with WBSEDCL in supporting West Bengal’s long-term sustinable power needs. PTSL is rapidly emerging as a partner of choice for bulk power consumers, with the ability to structure bespoke and scalable solutions around their specific energy requirements." said Mr. **Kandarp Patel, CEO, AESL.**

The order represents a significant addition to PTSL’s expanding portfolio of energy solutions. While it has tied-up ~4.6 GW of solar & wind, and ~3.5 GWh of BESS capacity on the sourcing side, it is steadily stitching the supply side by augmenting long term supply contracts with bulk consumers like industries, data centres, commercial entities, and Discoms.

About Adani Energy Solutions Ltd (AESL)

AESL, part of the Adani portfolio, is a multidimensional organization with presence in various facets of the energy domain, namely power transmission, distribution, smart metering, and cooling solutions. AESL is the country’s largest private transmission company with a cumulative transmission network of 30,683 ckm and 146,585 MVA transformation capacity. In its retail electricity distribution business, as on AESL serves approximately 13 million consumers in metropolitan Mumbai and the industrial hub of Mundra SEZ. AESL is ramping up its smart metering business and is on course to become India’s leading smart metering integrator. AESL, with its integrated offering through the expansion of its distribution network through parallel licenses and competitive and tailored retail solutions, including a significant share of green power, is revolutionizing the way energy is delivered to the end consumer. AESL is a catalyst for transforming the energy landscape in the most reliable, affordable, and sustainable way.
