Sub: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Participation in the 3rd World Mayors' Forum & 7th Asia Cities Summit 2026, Mumbai, and Press Release

Dear Sir / Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with Schedule III thereof, we wish to inform you that Blue Cloud Softech Solutions Limited ("the Company") is participating in the 3rd World Mayors' Forum & 7th Asia Cities Summit 2026, being held at the Fairmont Mumbai on 25 and 26 November 2026. The forum is organised by the All-India Institute of Local Self-Government (AIILSG) in its centenary year, with the Brihanmumbai Municipal Corporation as Host City Partner.

The key details are as follows:

- The event has been attended by delegates from over 100 countries, most of them mayors and city leaders, together with ministers, senior government dignitaries and elected representatives.

- The Company's delegation is led by Mr. Tejesh Kumar Kodali, Group Chairman, and Mr. Bhaskar Nallamilli, Managing Director, together with Dr. Murthy Devarabotla, Director and President of The Diplomatic Club, and members of the senior leadership team.

- The Company showcased its BluHealth health-screening kiosks and BioSter solution at the forum. Mayors and civic leaders showed interest in the Company's healthcare products.

- Dr. Kiran Velpula, Deputy Mayor of Peoria, Illinois, USA and President, Blue Cloud USA, addressed the forum's session on "Artificial Intelligence, Real Cities: Governing the Tech-Driven Urban Future" and presented the Company's AI-first, sovereign-by-design technology for cities. The Company's team also took part in other forum sessions and discussions.

- The Company has received interest and enquiries from city leaders and will follow up on them. No order has been received, and no binding agreement has been entered into pursuant to the event as on the date of this intimation. Any material development will be disclosed as and when required under the applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

A copy of the press release issued by the Company in this regard is enclosed. The same is also being made available on the Company's website.: https://bluecloudsoftech.com/wp-content/uploads/2026/11/press-release1.pdf.

You are requested to take the above on record.

Thanking you,
For Blue Cloud Softech Solutions Limited

PRESS RELEASE

For Immediate Release | Mumbai, 26 November 2026

Blue Cloud Showcases Sovereign AI Healthcare and Civic Technology to Mayors from Over 100 Countries at the 3rd World Mayors' Forum, Mumbai

BluHealth kiosks and BioSter draw strong interest from city leaders; Dr. Kiran Velpula addresses mayors and ministers on AI and the future of cities

KEY HIGHLIGHTS

- Delegates from over 100 countries, mostly mayors and senior city leaders, with ministers in attendance
- BluHealth kiosks and BioSter showcased, drawing strong interest from mayors
- Dr. Kiran Velpula, Deputy Mayor of Peoria, addressed the forum on AI in cities
- Blue Cloud team took part in several forum sessions and engaged dignitaries from across states and countries

Mumbai, 26 November 2026: Blue Cloud Softech Solutions Limited (BSE: 539607 | NSE: BLUECLOUDS), an AI-first technology company headquartered in Hyderabad, is participating in the 3rd World Mayors' Forum and 7th Asia Cities Summit 2026 at the Fairmont Mumbai, being held on 25 and 26 November 2026. The forum is organised by the All-India Institute of Local Self-Government (AIILSG) as part of its centenary year, with the Brihanmumbai Municipal Corporation as Host City Partner.

The two-day forum has brought together delegates from over 100 countries, most of them mayors and senior city leaders, along with the Hon'ble Chief Minister of Maharashtra and ministers from several states. The agenda covers the future of Indian cities, city-to-city cooperation, artificial intelligence in urban governance, public safety, waste, climate and energy.

Healthcare technology showcased to city leaders

Blue Cloud presented two solutions at the forum, both designed for the everyday needs of cities and their citizens:

- **BluHealth kiosks:** AI-integrated, non-invasive health screening that delivers vital-sign readings through a camera in minutes, with no invasive equipment, so that preventive screening can reach more people at public places.
- **BioSter:** a solution that helps keep air and surfaces in hospitals, schools and public spaces safer from pathogens.

Mayors and civic leaders visiting the Blue Cloud presence showed keen interest in both offerings, and several have asked for follow-up discussions on how these solutions could serve their cities.

Address on AI and the future of cities

Dr. Kiran Velpula, President of Blue Cloud USA and Deputy Mayor of the City of Peoria, Illinois, USA, addressed the forum's discussion on "Artificial Intelligence, Real Cities: Governing the Tech-Driven Urban Future", before an audience of mayors, ministers and senior city leaders. Drawing on his experience in municipal governance, he shared Peoria's approach to city leadership and set out why Blue Cloud believes cities need technology they can own and run. He described Blue Cloud's approach in three parts:

- **AI-first, not AI-added:** working products and platforms that cities can operate in the field, rather than reports that sit on a shelf.
- **Sovereign by design:** Blue Cloud's Access Genie platform and BluEdge sovereign AI keep intelligence and citizen data within the country and under the customer's control, with cybersecurity built in from day one.
- **Outcome-driven:** BluHealth for preventive health screening, BioSter for safer public spaces, Blura SAGA for early threat detection and citizen-grievance listening, and BluVaani, an AI voice agent for police and civic helplines.

> *"Mayors and leaders, you do not need more disconnected dashboards. You need cities that think, respond, and care. Blue Cloud would be honoured to build that future with you."* **– Dr. Kiran Velpula**

Management perspective

> *"Cities are where governance meets the citizen, and that is exactly where AI has to deliver. Blue Cloud is an AI-first company building sovereign, outcome-driven platforms that governments can own and run. The response from mayors at this forum shows that cities across the world are looking for AI that works in the field, and we are glad to be part of this conversation in AIILSG's centenary year."* **– Mr. Tejesh Kumar Kodali, Group Chairman, Blue Cloud Softech Solutions Limited**

> *"Meeting mayors and city leaders from over 100 countries in one place has been a strong validation of our approach. BluHealth and BioSter address needs that every city shares, and the interest we have seen gives us a clear base to build on. Our focus now is to follow up with each city and turn this interest into working deployments."* **– Mr. Bhaskar Nallamilli, Managing Director, Blue Cloud Softech Solutions Limited**

Blue Cloud delegation

The Blue Cloud team at the forum comprised:

Name	Designation
Mr. Tejesh Kumar Kodali	Group Chairman
Mr. Bhaskar Nallamilli	Managing Director
Dr. Kiran Velpula	President, Blue Cloud USA; Deputy Mayor and At-Large Council Member, City of Peoria, Illinois, USA
Dr. Murthy Devarabotla	Director, Blue Cloud; President, The Diplomatic Club
Mr. Nadh Thota	Chief Global Sales Officer
Mr. Ravi Kaushik	Vice President – Business Development
Ms. Mounika Manikonda	Vice President
Mr. Yougendra Sheth	Vice President

Engagement with dignitaries and city leaders

The delegation included Dr. Murthy Devarabotla, Director of Blue Cloud and President of The Diplomatic Club, who joined the team in engaging delegates, mayors and dignitaries at the forum.

During the forum, the Blue Cloud delegation interacted with senior dignitaries and elected representatives, including the Hon'ble Chief Minister of Maharashtra, the Hon'ble Mayor of Mumbai and a Minister of the Government of Himachal Pradesh, along with a number of other political leaders and senior officials, as well as mayors and city officials from several countries.

Members of the delegation also took part in other forum sessions and open discussions. The forum has brought significant attention to Blue Cloud's healthcare and sovereign AI offerings among city and state leaders.

Way forward: strategy, markets and deployment

Building on the response at the forum, the Company will follow up with interested cities and authorities in preventive healthcare, public safety and citizen services, guided by three principles:

- **Strategy:** product-led and sovereign by design. Blue Cloud leads with its own platforms, Access Genie, BluEdge, Blura SAGA, BluVaani, BluHealth and BioSter, to give a city one connected view across health, public safety and citizen services, with data and intelligence staying within the customer's own country.

- **Markets:** city and state governments and municipal bodies in India, together with priority regions in Africa, South-East Asia, the Middle East and North America, building on the Company's operations in 10 countries.
- **Deployment:** pilot first, then scale. A city can start with a limited pilot, for example BluHealth kiosks deployed as a service at selected public locations, and extend to a wider rollout. Where required, software platforms can run on the customer's own premises so that the city retains full control.
