# Coforge EvolveOps.AI Wins "AI Platforms, Infrastructure & Developer Tools" Award at ET's Most Innovative AI Product Awards 2026

Recognition highlights Coforge's proven impact in accelerating autonomous enterprise operations and infrastructure management

**Greater Noida, India – November 26, 2026 –** Coforge Limited (NSE: COFORGE), a global AI-native engineering services leader, has been named the winner of the "AI Platforms, Infrastructure & Developer Tools" in enterprise category at The Economic Times' Most Innovative AI Product Awards 2026 for Coforge EvolveOps.AI™ (part of the Coforge Nuuron enterprise AI enablement suite). The award recognizes outstanding AI products that demonstrate architectural originality, production scalability, and transformative enterprise value.

The awards followed an evaluation by an independent jury of industry leaders and technology experts, who reviewed nominees across criteria including technical innovation, agentic reasoning capabilities, infrastructure reliability, and responsible governance. Coforge was cited for its ground-up engineering of EvolveOps.AI, which establishes a unified, autonomous control plane across compute, multi-cloud environments, and business applications.

"This award from The Economic Times validates our vision to engineer truly autonomous, resilient enterprise systems," said Ashish Kumar, Global Head, Cloud & AI Infrastructure, Coforge. "With EvolveOps.AI, we have moved beyond reactive monitoring to deliver autonomous, self-healing technology operations. By combining open-source foundations, purpose-built small language models, and multi-agent systems, we are enabling our clients to achieve zero disruption, zero touch, and zero friction across their enterprise estate."

Operating in live production for 27 enterprise clients, Coforge EvolveOps.AI actively manages more than 110,000 nodes, 500,000 assets, and 3,100+ GPUs, serving more than 45 million end users. Powered by 28 operationalized AI agent personas collaborating over the Model Context Protocol (MCP), the platform harmonizes more than 16 million events daily across 85 telemetry systems, achieving a 97.5% reduction in operational noise.

In production, enterprises leveraging the platform have achieved a 40% autonomous resolution of incidents, a 60% reduction in combined MTTD and MTTR, a 25% reduction in downtime, and a 40% reduction in IT operational expenses, with zero P1 incidents across 193 critical systems over the last twelve months.

## About Coforge

Coforge is an AI-native engineering services leader, where AI is the foundation of how we design, build, and deliver intelligent solutions for our clients. We use AI and hyperspecialized industry expertise to engineer autonomous enterprises. We combine AI agents with our AI-enabled workforce, including specialized FDEs in hybrid pod-based delivery units. With a deep focus on trusted AI, our solutions are secure, governed, and enterprise-grade. We are outcome-led by design. Moving beyond AI

experimentation, we deliver measurable business outcomes—including lower operating costs, faster cycle times, higher conversion rates, and sustained margin growth. Learn more at www.coforge.com
