Dhanlaxmi Crop Science Limited ★ Himatnagar S.K.

Commenting on the performance, Mr. Kamleshkumar Jayantilal Patel, Managing Director said: ***"Our company delivered a strong performance in FY25, with revenue growing by 103% YoY EBITDA increased by 83%, while Profit After Tax (PAT) saw a remarkable 85% YoY growth, reflecting the strength of our operations and continued focus on efficiency.***

Due to the seasonal nature of its business, approximately 95% of the company's revenue is generated during the first half of the financial year, i.e., from April to September.

The company, has taken a significant step in expanding its portfolio by acquiring the intellectual property of 42 seed products from Janki Seeds and Research Pvt Ltd. (JSRPL). This strategic move reinforces Dhanlaxmi's commitment to advancing agricultural innovaton. JSRPL, a well-established player in the seed industry, specializes in research, production, and marketing of various agricultural crops (excluding cotton).

Dhanlaxmi has received government approval for 40 out of the 42 acquired seed products, along with permission for their production and sales in Maharashtra.

Among these, Paddy, India's most widely cultivated crop, holds significant demand in the region. The acquisition includes six research Paddy and one hybrid variety, ensuring Maharashtra's farmers gain access to superior-quality seeds, reinforcing Dhanlaxmi's commitment to innovation and sustainability in the agricultural sector.

About Dhanlaxmi Crop Science Limited

Dhanlaxmi Crop Science Limited is a technology driven seeds company that develops, produces, processes and sells seeds for a range of field crops and vegetables, have more than 18 years of experience in the Indian seeds industry. We integrate traditional breeding techniques with biotechnology tools and seek to produce hybrid and open pollinated variety field crops and vegetable seeds that deliver higher yields, enhanced product quality and higher levels of pest and disease tolerance over naturally occurring varieties. Our seeds are suitable for varying agroclimatic conditions, such as water availability, crop duration and soil attributes, across different geographic regions in India
