Dynacons Systems & Solutions Limited Reports Q2 & H1 FY2027 Results — *Supreme Court of India Awards ₹137.15 Crore Order; Dynacons Enters International Markets with Caribbean Digital Transformation Project*

Q2FY27 Revenue from Operations ₹ 551.36 Crore; PAT of ₹ 29.81 Crore

Saturday, November 14, 2026; (NSE: DSSL | BSE: 532365)

Dynacons Systems & Solutions Limited (NSE: DSSL | BSE: 532365), a leading IT infrastructure and digital transformation company, announced its Unaudited standalone and Consolidated Financial Results for Q2 FY2027 and the half year ended 30 September 2026 (H1 FY2027), as approved by its Board of Directors at its meeting held on 14th November, 2026.

The Company continued to deliver healthy performance during the quarter, anchored by continued execution on its strong order book and robust demand from BFSI, government, and enterprise customers across Data Centre & Cloud Infrastructure, Network & Cybersecurity, Digital Workplace Solutions, and Managed Services. Subsequent to the quarter, Dynacons secured a landmark ₹137.15 crore order from the Supreme Court of India and entered international markets with a USD 6.83 million Caribbean Digital Transformation Project.

Financial Performance:

(₹ in Crores)

PAT Margin (%)						6%	6%	
EPS (Rs.)	23.40	17.82	31%	15.54	51%	38.95	33.26	17%

Strategic and Business Highlights

1. Landmark Contract Wins Reinforce Dynacons' Position across Judiciary, BFSI and International Markets

During Q2 FY27, Dynacons continued execution on the ₹267.58 crore order secured from the National Payments Corporation of India (NPCI) for Data Centre Augmentation. The project includes enterprise server infrastructure at NPCI Data Centres, with 24x7x365 support and a 7-year warranty and support commitment. Subsequent to the quarter, the Company secured its largest order from the judiciary ecosystem to date — a ₹137.15 crore (inclusive of GST) project from the Supreme Court of India for the Supply, Installation, Testing and Commissioning (SITC) of 728 servers to host the Case Information System (CIS) software of the District Courts. The Company also entered international markets with a USD 6.83 million order from the Ministry of Public Works, Public Utilities and Digital Economy under the Caribbean Digital Transformation Project Unit, Commonwealth of Dominica.

2. Robust Order Book Provides Strong Revenue Visibility

The Company's order book is supported by a robust bidding pipeline. It is underpinned by large, multi-year mandates across private cloud infrastructure, enterprise applications, digital workplace solutions, Device-as-a-Service and managed networking, spanning marquee BFSI institutions, central government and judiciary organisations, and international government clients. This provides revenue visibility through FY27 and beyond.

3. Deepening Infrastructure and e-Governance Capabilities

The Supreme Court of India project for hosting the Case Information System (CIS) software of the District Courts, together with the NPCI data centre augmentation project, reinforces Dynacons' capabilities in large-scale server deployment, data centre infrastructure and long-term managed support delivery for e-governance and BFSI clients.

4. Nationally and Globally Recognised for Security, Partnership and Growth

During the quarter, Dynacons achieved **SOC 2 Type II Certification**, reinforcing its commitment to security, reliability and trust. Subsequent to the quarter, the Company was recognised as one of the **"Leading Mid-Corporates of India 2026" by Dun & Bradstreet**, and was honoured with the **"Spirit of Partnership" Award at Motadata Amplify: Partner Connect Mumbai 2026**, reflecting its strong execution and client relationships across public and private sector technology deployments.

5. Sustained Execution across Business Segments

Across Q2 FY27, Dynacons demonstrated strong execution momentum on its order book, with active delivery across Data Centre & Cloud Infrastructure, Digital Workplace Solutions, Network & Cybersecurity and Managed Services. The continued preference of leading public sector banks, insurance companies, judiciary bodies and central government bodies for Dynacons as their strategic IT infrastructure partner — now extending to international government clients in the Commonwealth of Dominica — reflects the depth of the Company's relationships, pan-India delivery capability across 1500+ locations, and adherence to the highest quality standards — reinforced by its CMMI Level 5 rating and ISO 9001, ISO 20000 and ISO 27001 certifications.

Management Commentary

"We delivered a steady performance in Q2 and H1 FY2027, supported by continued execution across our key business segments and sustained demand from BFSI, government and enterprise customers. During the quarter, we continued to strengthen our capabilities across data centre infrastructure, cloud and managed services, while achieving SOC 2 Type II Certification. Subsequent to the quarter, the ₹137.15 crore order from the Supreme Court of India and our entry into international markets through the USD 6.83 million Caribbean Digital Transformation Project mark important milestones in our growth journey. Going forward, we remain focused on disciplined execution, expanding our technology capabilities, strengthening customer relationships and delivering sustainable growth with continued emphasis on profitability."

— Mr. Shirish Anjaria
Chairman cum Managing Director

About Dynacons Systems & Solutions:

Dynacons Systems & Solutions Ltd. is a leading IT infrastructure and digital transformation company with over three decades of experience, providing end-to-end technology solutions across Data Centre & Cloud Infrastructure, Network & Cybersecurity, Digital Workplace Solutions, Managed Services, and Enterprise IT Services.
