Key Operating Highlights – Q2 FY2027

Strong Operating Performance
Consolidated EBITDA increased 35% YoY to Rs. 58 crore, with EBITDA margin expanding by 267 bps to 15%

Healthy Growth in India
India revenue grew 10% YoY and 26% QoQ to Rs. 255 crore, reflecting a strong sequential recovery in business activity

Improved Domestic Profitability
Standalone EBITDA increased 43% YoY to Rs. 37 crore, with EBITDA margin improving by 345 bps to 15%

Strong USA Performance
Revenue increased 29% YoY to Rs. 112 crore, while segment profitability improved 76% YoY, with segment margin expanding to 19%

Egypt Manufacturing Milestone
New manufacturing facility commenced commercial production of CNG cylinders in September 2026, followed by commercial dispatches in October.

Strategic MoU with CARGAS
Egyptian subsidiary signed an MoU in November 2026 to explore manufacturing of CNG transportation units and associated trailers for regional markets

"We delivered a strong performance in Q2 FY2027, supported by healthy demand across CNG and industrial gas applications in India. Our USA operations also performed well during the quarter, reflecting healthy business traction in the region. Our focus on operational excellence, strengthening customer relationships and expanding our manufacturing capabilities continues to support our business growth.

Our new manufacturing facility in Egypt commenced commercial production in Q2 FY2027, followed by commercial dispatches of CNG cylinders in October. Further, our Egyptian subsidiary signed an MoU with Natural Gas Vehicles Company (CARGAS) in November to explore opportunities in the manufacturing of CNG transportation units and associated trailers. These developments mark important milestones in establishing our operations in Egypt and positioning us to pursue opportunities in the region's natural gas infrastructure market.

We continue to ramp up our expanded manufacturing capacities while pursuing growth opportunities across higher-value applications, including industrial gases, semiconductors, defence, hydrogen and other clean energy segments. With our growing international presence, enhanced manufacturing capabilities and expanding product portfolio, we believe EKC is well positioned to capitalise on emerging opportunities in high-pressure gas storage solutions and drive sustainable long-term growth."

- **Pushkar Khurana**, Chairman & **Puneet Khurana**, Managing Director
