GATEWAY DISTRIPARKS WINS CONTRACT TO OPERATE COMMON RAIL YARD AT JNPA

New Delhi, November 18, 2026: Gateway Distriparks Limited (GDL) has been awarded an 8-year contract for the operations and management of the Dedicated Freight Corridor (DFC)-compliant common rail yard terminal at Jawaharlal Nehru Port Authority (JNPA) at Nhava Sheva.

The common rail yard terminal forms an important part of JNPA's rail infrastructure, facilitating the handling of mixed container trains carrying cargo destined for different container terminals within JNPA. Of the five rail terminals within the port, this is one of only two facilities equipped with 1,500-metre-long DFC-compatible railway lines, designed to accommodate long-haul container trains and enable efficient handling and movement of rail-bound import and export cargo.

Under the contract, Gateway will be responsible for the operations and management of this common rail yard terminal, including train handling and placement within the terminal, segregation of mixed container trains, container handling and stacking, inter-terminal transfers and associated yard activities. This will help support more efficient train handling, improved coordination and optimal utilisation of the port's rail infrastructure.

Prem Kishan Dass Gupta, Chairman & Managing Director, Gateway Distriparks Limited, commented:

"We are pleased to take on this responsibility at JNPA, which is an important gateway for India's international trade. Rail connectivity plays a vital role in moving containers efficiently to and from the port, and we look forward to bringing our experience in rail operations to this facility. Our focus will be on working closely with JNPA and the port terminals to ensure smooth train movements, better coordination and reliable service for everyone using the rail network."

The award represents a strategic expansion of Gateway's service portfolio beyond its established container rail transportation, Inland Container Depot (ICD) and Container Freight Station (CFS) operations. It further strengthens the company's presence at JNPA, where Gateway already operates a CFS, while establishing a platform to pursue similar management opportunities across India.

About Gateway Distriparks Limited

Gateway Distriparks Limited is one of India's leading integrated multimodal logistics companies, providing container rail transportation, inland container depot and container freight station services. The company operates an extensive network of rail-linked inland terminals and container freight stations, offering integrated logistics solutions to importers, exporters and shipping lines. Gateway is focused on strengthening India's rail-led logistics infrastructure and facilitating efficient movement of containerised cargo across the country.
