PRESS RELEASE

Infosys Positioned as a Leader in the 2026 Gartner® Magic Quadrant™ for Public Cloud Optimization and Transformation Services for the Fourth Consecutive Year

Recognition highlights Infosys' AI-first, platform-led approach to continuous cloud optimization and transformation across hybrid multi-cloud environments

Bengaluru, India – November 17, 2026: Infosys (NSE, BSE, NYSE:INFY), a global leader in AI-first business consulting and technology services, today announced that it has been positioned as a Leader in the 2026 Gartner® Magic Quadrant™ for Public Cloud Optimization and Transformation Services*, for the fourth year in a row.

This recognition reflects Infosys' strength in helping enterprises achieve business outcomes through cloud transformation and optimization. It is also a testament of Infosys' ability to execute and completeness of vision, reflecting the reliability and scale of Infosys' delivery across enterprises' cloud and AI modernization journeys.

Through Infosys Cobalt and Infosys Topaz, with a productized service delivery approach on the Topaz Fabric, Infosys helps enterprises modernize hybrid multi-cloud environments and reimagine business processes in an AI-first manner. With AI embedded across the migration, modernization, operations, and optimization lifecycles, Infosys accelerates enterprise cloud journeys through zero-touch operations, self-healing systems, and AIOps-driven resiliency, built on a secure and sovereign cloud and AI foundation with intrinsic guardrails. Across engagements spanning industries, Infosys helps clients transform complex legacy landscapes, including mainframe and data centre-based estates, into cloud-first, API-driven, and serverless environments, applying cloud-native engineering, DevSecOps, zero-trust security, and FinOps to improve agility, efficiency, and time to market for its clients.

Anant Adya, EVP and Service Offering Head, Infosys, said "Enterprises today need technology programs that deliver measurable business value, not just migration outcomes. Our continued investments in cloud, powered by the integration of Infosys Cobalt and Infosys Topaz, are helping clients modernize faster, reduce risk, and cost, and build leaner, smarter business processes at scale. We're backing this with a deliberate talent strategy, upskilling our workforce and building innovation labs across regions to co-innovate the future with our clients. Our positioning as a Leader for the fourth consecutive year in the Gartner Magic Quadrant for Public Cloud Optimization and Transformation Services reflects our ability to consistently deliver on client expectations and drive real business outcomes from cloud transformation."

**Gartner® Magic Quadrant™ for Public Cloud Optimization and Transformation Services was previously named as the Gartner® Magic Quadrant™ for Public Cloud IT Transformation Services.*

About Infosys

Infosys (NSE, BSE, NYSE: INFY) is a global leader in AI first business consulting and technology services. Over 325,000 of our people work to amplify human potential and create the next opportunity for people, businesses, and communities. As navigators of enterprise transformation, we enable businesses in 59 countries to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, we accelerate business transformation through our AI-first value framework, deep domain expertise, and our unique ability to orchestrate innovations from our AI-native partner ecosystem. Infosys is recognized as the fastest growing IT services brand globally, committed to being a well-governed, environmentally sustainable partner for our clients where deep talent expertise, in an inclusive workplace, help them navigate their next.

Safe Harbor

Certain statements in this release, including those concerning our future events, future growth prospects, our future financial or operating performance and our offerings and collaborations are "forward looking statements" intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. These forward-looking statements are subject to substantial known and unknown risks, uncertainties and other factors, that could cause actual results or outcomes to differ materially from those implied by such forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes, particularly in the United States, our Environmental, Social, Governance ("ESG") vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2026. These filings are available at www.sec.gov. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
