Management Commentary

(Hony.) Brig. Dr. Arvind Lal, Padma Shri
Executive Chairman

Commenting on the performance, (Hony) Brig Dr Arvind Lal, Executive Chairman said:

"At Dr. Lal PathLabs, we see this decade as one for deep transformation. The burden of chronic and lifestyle-related diseases continues to rise, demanding greater focus on early detection and continuous monitoring. As new therapies for diabetes, hypertension and obesity become more widely available, the role of diagnostics will only intensify.

Further, as policy initiatives like Ayushman Bharat expand access across Tier-2 and Tier-3 regions, diagnostics is emerging as the essential first step in care delivery. The growing awareness around preventive health, supported by rapid digital adoption, is helping millions of citizens engage with organized healthcare for the first time. This convergence of accessibility, affordability, and accountability marks a defining moment for the sector, and we are privileged to play a prime role in it.

As the shift from unorganized to organized healthcare continues, we stand ready to lead the way responsibly and to contribute meaningfully to India's ambition of universal healthcare."

Mr. Shankha Banerjee,
Chief Executive Officer

Commenting on the performance, Mr. Shankha Banerjee, Chief Executive Officer said:

"Q2 FY26 marked a healthy revenue growth trajectory on the back of a robust sample volume growth. As we continue to focus on improving patient service, enhancing medical expertise and network expansion, this momentum is expected to continue.

We continue to broaden our high-complexity testing capabilities, including Genomics, Oncology, Autoimmunity and others. We are also increasing applications for AI in our operations, including in-house developed algorithms.

Digital and automation initiatives remain central to improving operational efficiency, enhancing patient experience, and supporting scalable growth.

Moving forward, growth will be underpinned by geographic expansion, portfolio innovation and digital enablement. Our pricing discipline continues to serve as a powerful lever, and is expected to support movement from unorganized to organized players.

Our operational priority remains to maximize network utilization and convert infrastructure into significant operating leverage, ensuring we deliver superior, sustainable, and profitable growth for our shareholders."

Mr. Ved Prakash Goel,
Group CFO & CEO – International Business

Commenting on the performance, Mr. Ved Prakash Goel, Group CFO & CEO – International Business said:

"Q2 FY26 demonstrated steady growth in volumes and favourable business mix, driving sustained financial performance. By maintaining disciplined execution, cost efficiency and a calibrated pricing approach, we have maintained profitability while retaining strategic flexibility for future investments.

During the quarter, we further expanded our footprint across underpenetrated markets, supported by new labs and PSCs, while reinforcing engagement with channel partners. This tiered expansion strategy, coupled with completion of back-end integration and merger of Suburban Diagnostics, is helping us unlock new demand pockets and strengthen our leadership in core regions, including Delhi NCR, Mumbai, Pune, and Goa. Strategic digital investments continue to yield tangible ROI.

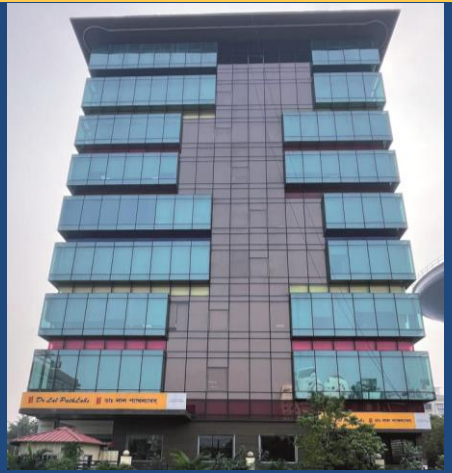

Looking ahead, with a robust balance sheet, strategic investments in technology, and a clearly defined growth roadmap, we are confident of delivering sustainable long-term value and capturing the shift from unorganized to organized diagnostics across India."

Corporate Overview

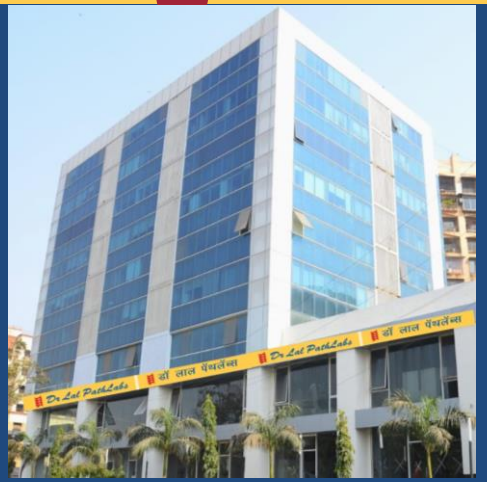

NATIONAL REFERENCE LAB

KOLKATA REFERENCE LAB

BENGALURU REFERENCE LAB

MUMBAI REFERENCE LAB

Overview of Dr. Lal PathLabs

Established brand

Established consumer healthcare brand in diagnostic services

Pan-India integrated coverage

298 clinical labs (including National Reference Lab at Delhi and Regional Reference labs at Kolkata, Bangalore & Mumbai), 6,607 Patient Service Centers (PSCs) and 12,365 Pick-up Points (PUPs)

Varied Offerings

Catalogue of 385 test panels, 3,172 pathology tests and 1,455 radiology and cardiology tests

Unique and successful operating model

Scalable model integrated through centralized IT platform allows for network expansion

Well-positioned in one of the fastest-growing segments of the Indian healthcare industry.

As on March 31, 2025

Our Evolution

1949-2005

Foundation

- **1949:** Founded by Dr. Major S. K. Lal
- **1995:** Company incorporated as Dr. Lal PathLabs Private Ltd.
- **2000:** Three clinical labs receive NABL[1] accreditation
- **2001:** Received ISO 9001:2008 certification
- **2002:** Received 'International Accreditation' from CAP[2]

2005-2010

Building capabilities for scale up

- **2005:** onwards: Investment by WestBridge Capital
- **2008:** Acquisition of Paliwal Medicare Private Limited and Paliwal Diagnostics Private Limited
- **2010:** National Reference Lab set up in Delhi

2010-2015

Strong position in North India, building network in other geographies

- Investment by TA Associates
- Clinical laboratories expansion in North region
- Growing the business in East region
- Entry into the South and West regions
- Multiple acquisitions to scale network
- Successful IPO listing in Dec 2015

2015-2020

Higher contribution from Rest of India, Commissioned state of the art Kolkata Reference Lab

- Higher contribution from Rest of India business & focus on bundled test program "Swasthfit"
- Successful commissioning of Regional Reference Lab at Kolkata in 2018
- Inorganic growth through acquisition of laboratories in Western & Southern India

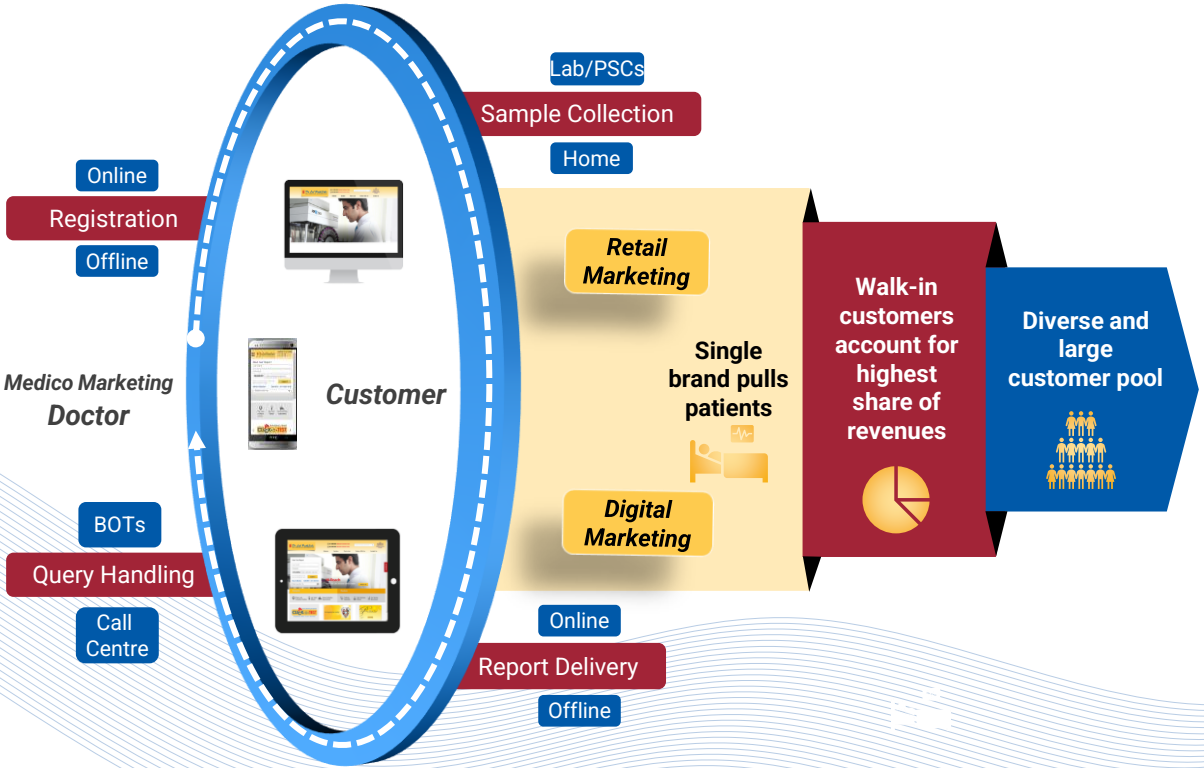

2020 onwards

Pan India Player – Acquired Suburban, Building South Ecosystem

- First to set-up RT-PCR testing network in 2020
- Completed acquisition of Suburban Diagnostics in 2021
- Expanded South ecosystem through Bengaluru Reference Lab and network of Hub & Satellite labs
- Established hub labs in North region
- Spearheading investments in Digital and InfoSec
- Successful commissioning of Regional Reference Lab at Mumbai in 2023

1. NABL: National Accreditation Board for Calibration and Testing Laboratories.
2. CAP: College of American Pathologists.

Most trusted healthcare brand in Diagnostic Services

Pillar of a Strong Brand

- Accreditations from CAP, NABL and ISO
- Centrally administered surveillance programs
- Coverage in metros, Tier 1, Tier 2 & Tier 3+ cities
- Wide reach through PSCs and PUPs
- 24x7 access including online access and home collection
- Dedicated logistics team

Accreditations

SCALABLE INFRA – LEVERAGING POWER OF CLOUD

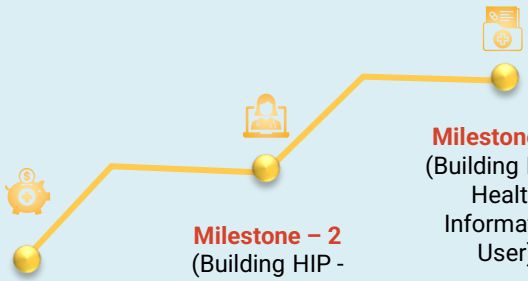

ABDM - All Milestones acheived, DLPL among early adopters

Ayushman Bharat Digital Mission aims to create a National Digital Health Ecosystem to bridge the existing gap amongst different stakeholders of Healthcare ecosystem through digital highways. The mission also enables interoperability and portability of health records and support innovation and research in the health sector.

The NDHM ECOSYSTEM

The program is divided into 3 milestones from Technology enablement perspective.

Milestone – 1 (ABHA ID: Ayushman Bharat Health Account)

Milestone – 2 (Building HIP - Health Information Provider)

Milestone – 3 (Building HIU – Health Information User)

Integrated: M1, M2, M3

DLPL IS AMONG THE FEW EARLY ADOPTERS WHO HAVE RECEIVED ALL M1, M2 AND M3 CERTIFICATION.

The benefits of the mission are manifold and will help the entire ecosystem, from Policy Makers to Researchers, and Health Care Professionals to Patients.

Vision, Mission & Values

VISION

Be the most trusted healthcare partner, enabling healthier lives

MISSION

To be an undisputed market leader by providing accessible, affordable, timely and quality healthcare, diagnostics, applying insights and cutting-edge technology to create value for all stakeholders

VALUES

Customer First

Ethics & Integrity

Quality

Accountability

Empathy & Compassion

DLPL Strategy for future growth

Drive increased volume in high-potential West & South India; Hub labs in North

- Follow cluster city approach
- Enhance presence in Maharashtra especially Mumbai
- Launched Reference labs in Bengaluru & Mumbai

Enhance high-end test portfolio of super-specialty & bundled test

- Established specialty verticals: Genevolve (genomics), L-CoRD (reproductive diagnostics), L-ACE (auto-immune disorders)
- Swasthfit: Core for comprehensive patient solutions.

Significantly leverage the strong digital infrastructure

- AI/ ML-powered data analytics for enhanced patient experience & personalized solutions.
- Dedicated digital team driving volume growth

Maintain leadership position in the existing core markets

- Leverage strong brand equity in core market of North India
- Offer value to patients by up-selling opportunities

Leveraging digital infrastructure to make life easier for patients

New Website Launch

- New age user intuitive website.
- Responsive , mobile friendly web designs.
- SEO friendly for improved customer reach
- Strategic placement of Buttons and Web forms to generate more leads and better order conversion rates from website

Reco.ai

- LPL's own AI based Recommendation Engine
- Recommends Patient relevant tests as per his current health condition, past report trends, demographic details, etc.

Logistics App

- Machine Learning based FE Route Generation
- Machine Learning based Tube Scanning Bag creation process.
- Secure QR Code based handshake for every process.
- Geo-fencing and Precious sample recognition
  Intra and Intercity sample movement.

Wallet

- Senior Citizen Wallet: Wallet points on every booking for Senior Citizen Patients.
- Phlebo Wallet: Wallet points on enhanced superior services to customers.

One Registration

- One unified platform for all POS registrations
- Error Proofing

Chatbot 2.0

- New version of Chatbot.
- Book an appointment functionality.
- ETR and Report visibility of customer orders.
  Recommendation of Preventive Health Checkups

Genevolve: Genetic Testing Division

- Successful completion of "5 years of Launch"
- On-boarded latest NGS instrument "Illumina X Plus"
- Introduced a range of "cfDNA Liquid Biopsy Tests"
- Launched First in India, "Screening Early-stage Liver Cancer"
- Dedicated "Business Development Sales Team"
- State of art technologies "In-House at 4 Reference Labs"

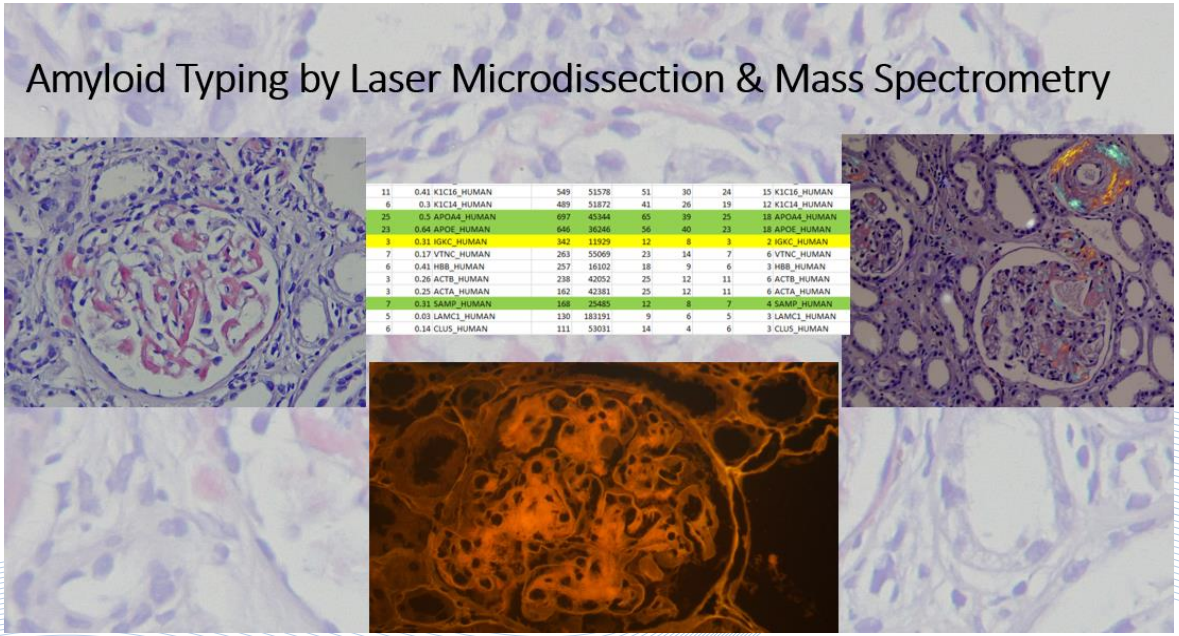

First in South Asia - Amyloid Typing

Amyloid Protein Typing Facility

Dr. Lal PathLabs becomes south Asia's first diagnostic chain to offer advance test for amyloidosis: a rare, life-threatening protein disorder

In a significant medical advancement, Dr. Lal PathLabs has launched South Asia's first advanced test for amyloidosis, a rare protein disorder. The test, guided by the National Amyloidosis Centre, uses cutting-edge technology to determine amyloid subtypes, enabling precise and targeted treatment.

Under the Guidance of the National Amyloidosis Centre, London (UK)

Highest Quality Standards in the Industry

Best in the Industry CAP Proficiency Testing Score at 98.0% for National Reference Lab

Consistently high EQAS Performance Testing Score at 98.3% for Satellite Labs

CAP accreditation 2 labs, NABL accreditation 40 Labs

Real time quality control monitoring

Risk based quality assurance framework

100+ Quality improvement meetings on a daily basis with the network partners

Digitally enabled solutions implemented for quality audits and trainings

Patent has been granted to Dr. Lal PathLabs for an invention related to REAL TIME QUALITY CONTROL MONITORING for the period of 20 years

Quality Control

Laboratory excellence

Capability building

PROJECT NEEV- self learning initiative for phlebotomists

D L Shah Gold Award for LPL Project
'Improving Laboratory Performance by developing an in-house automated process to monitor Quality control'

Quality education programs-- HUNAR for technicians and EDGE for Doctors

Control Tower Implementation

"Control Tower" implementation provides a complete visibility of Patient samples across the sample processing lifecycle. The insights will help the business users to reduce delay and improve processing leading to better customer service.

Control Tower Teams

Front Desk
Failure Indicator Areas - Home Collection, Credit management & Sample/Registration Deficiency

Logistics
Failure Indicator Areas - Unregistered Samples, Bagging & Shipping of samples

Lab Operations
Failure Indicator Areas - samples scan-in & scan-out , Shipment creation, Report Validation

Digital
Failure Indicator Areas: Delay in report upload and payment

Key Highlights

- Centralized Monitoring Team for **"Control Tower"** Operation
- Real-time information for the delays happening across sample processing lifecycle with actionable insights
- Quick decision making
- Drill-down level information available till last leaf i.e. Lab Number / Field Executive
- Information accessible based on Roles & Rights
- Overall design is based on **"Mobile First"** Approach

D365 Cloud Data Lake

- Future ready Cloud architecture with easily scalable and upgradable
- Cloud ERP Microsoft Dynamics 365 for Finance & Operations
- Data for **"Control Tower"** is processed through **"Data Lake"** hosted on Cloud
- **"Data Lake"** helps in consolidating the data from multiple source systems and provides easy access information securely

Enhanced Customer Experience in Home Collection

D2C – Automated lead management

Digital ID card & ratings of Phlebo to the patient

Variable model which grows with business volume

Real time 30 minutes slot visibility & booking for the patient

Auto Routing engine to dynamically allocate the booking to nearest available phlebotomist

Real time phlebo visibility to the patient

Key ESG Initiatives

Commissioned 3.18 MW Solar System for generating the green energy

Use of Electric bikes for sample collection

Saved 16,43,858 Kg of CO_2 emissions by using Solar power

Use of biodegradable bags for sample collection

Installed R32 refrigerant operated Inverter AC for Conserving ozone layer

All labs are equipped with Effluent Treatment Plant for wastewater treatment

49,384 hours of training for employee development

Descaling of DG Sets radiator to improve the smoke quality

Cyber Security Capability

Data Loss Prevention

- State-of-the-art data loss prevention technology to monitor and prevent the disclosure of information
- Data classification platform for information labeling and handling according to severity of data
- Rights management system to enable persistent data-centric protection

Extended Detection and Response

- Deployed next generation cyber technologies such as CASB (Cloud Access Security Broker), EDR (Endpoint Detection & Response), ATP (Advance Threat Protection), File Sandboxing, Email Zero-Day Protection, Risk-Based Conditional access to prevent the new-age cyberattacks

Software Security

- Vulnerability Assessment & Penetration Testing of IT apps and systems including cloud infra
- Periodic secure code, design and configuration reviews of mission-critical systems

Threat Intelligence

- Threat intel platform to monitor the surface, deep and dark web for credential disclosures, data leaks, frauds and scams
- Proactive detection and mitigation of vulnerabilities of publicly exposed systems

Security Operations Center

- Security operations center to monitor cyber threats 24x7
- Cyber Crisis Management Plan - Readiness, Response & Recovery to achieve the cyber resiliency

Training on Information Security

- Periodic Information security trainings to keep the employee based aware of latest cyber threats.
