Strategic Significance:

The launch of mtAlgoZ represents mastertrust's continued efforts to expand its digital product ecosystem and strengthen its presence in technology-enabled trading. The platform is designed to address the growing adoption of systematic trading approaches by providing users with tools to implement predefined trading rules without requiring specialised programming skills.

Through this initiative, the Company aims to broaden its technology-led offerings, enhance platform accessibility and strengthen its engagement with digitally active market participants. The launch is aligned with mastertrust's broader focus on innovation, customer convenience and the development of scalable digital financial solutions.

Commenting on the development Mr. Puneet Singhania, Whole Time Director of Master Capital Services Limited, a wholly owned subsidiary of Master Trust Limited said, "The launch of mtAlgoZ is an important milestone in our journey towards building a more comprehensive and technology-driven financial services ecosystem. We continuously strive to identify opportunities where technology can simplify financial participation and improve the overall experience for our clients.

With mtAlgoZ, we are expanding our digital trading proposition and providing users with greater flexibility in how they approach the markets. We believe that accessible technology, ease of use and continuous product innovation will play an important role in shaping the future of trading.

Going forward, we will remain focused on strengthening our technology capabilities, introducing innovative solutions and delivering greater value to our customers and stakeholders."
