Press Release

NIIT Learning Systems Limited and Kyndryl Earn Four Awards at the 2026 Learning Technologies Awards Ceremony.

London, UK, November 25, 2026: NIIT Learning Systems Limited (NIIT Learning) (NSE: NIITMTS, BSE: 543952), a global leader in Managed Learning Services, today announced that Kyndryl's ENGAGE: Consultative Selling with AI, built in partnership with NIIT Learning has received four distinguished honors at the Learning Technologies Awards, 2026.

The initiative won two Golds in the categories: Best use of AI to transform L&D in an organization and Excellence in the design of learning content. It also won a Silver for the Best learning technologies project category and a Bronze for Best use of AI in a learning technologies project category.

The complete list of winners is available at **here.**

ENGAGE is a five-day, AI-powered learning journey that helps Kyndryl's sellers move from technical delivery partner to trusted transformation adviser. Sellers practice consultative conversations with AI-powered executives in a realistic client simulation. Following the program, total signings across the assessed seller cohort more than doubled and revenue won per seller nearly tripled.

The Learning Technologies Awards are a globally respected benchmark of excellence in workplace learning, recognizing outstanding achievement in the design, delivery, and application of learning technologies across the private, public, and non-profit sectors. Finalists and winners are selected by an independent judging panel organized by The Learning Network, and the 2026 winners were announced on November 11 at a gala ceremony at Park Plaza Westminster Bridge in London, UK.

The four accolades acknowledge Kyndryl and NIIT Learning for pioneering innovation in applying AI purposefully and responsibly, championing accessibility-first learning design, and reimagining the L&D operating model to deliver measurable gains in individual and organizational performance.

"Enterprises are under growing pressure to show a return on their AI investments, and Kyndryl's ENGAGE demonstrates what that return looks like when AI is tied directly to a core business outcome. Kyndryl's sellers are winning more business, and four Learning Technologies Awards for a single program confirm ENGAGE as one of the strongest examples of an enterprise moving from AI ambition to AI execution. We are proud to partner with Kyndryl on work that sets the standard for how organizations turn AI into measurable growth," said **Sailesh Lalla, Chief Business Officer, NIIT Learning.**

(Disclaimer: NIIT Learning does not have any relation with the awarding agency and has nothing to do with the process and screening of the awards.)

About NIIT Learning Systems Limited

NIIT Learning is the trusted, award-winning L&D and talent partner for the world's leading companies, and a recognized leader in AI maturity for learning and development. Established in 1981, NIIT Learning helps enterprises build the AI operating model, infrastructure, and fluency that a human + AI workforce demands, pairing AI-powered managed learning with strategic consulting to solve the most complex challenges in learning, talent, skills, and workforce transformation. Across 40+ countries, our experienced learning teams help clients thrive in an AI-first world with AI-first L&D transformation solutions, reskilling employees at scale through intelligent coaching and dynamic simulations embedded directly into the workflow. With a Net Promoter Score of 9.65/10 and an industry-leading renewal rate, we help leading

companies reimagine their learning ecosystems and increase the business value and impact of learning.

About Learning Technologies

Learning Technologies is Europe's leading workplace learning event, held each year at Excel London, where L&D, HR and training professionals explore the ideas, innovations and technologies shaping the future of workplace learning. Held over two days, Learning Technologies pairs a free-to-attend exhibition with a paid conference. The most recent edition welcomed more than 15,000 professionals from 50 countries, alongside 200 exhibitors and 200 free seminars. It runs co-located with HR Technologies UK, and is supported year-round by the Learning Technologies Awards, the Learning Technologies Autumn Forum and ongoing LT Webinar series.
