Press Release

Pace Digitek Secures Its Largest-Ever BESS Order Worth Rs. 2,691 Crore from NTPC Green Energy

- *NTPC Green Energy Limited Awards Major 600 MW / 1800 MWh BESS EPC Contract to Pace Digitek Limited for Khavda Solar Project*
- *Order win accelerates manufacturing-led growth and execution scale, driving executable order book to Rs. 13,427 crore*

Bengaluru, November 16, 2026: Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550), an integrated energy and telecom infrastructure solutions provider, today announced that it has secured a landmark order worth Rs. 2,691 crore (inclusive of applicable GST) from NTPC Green Energy Limited for the engineering, procurement, construction (EPC), and long-term operational maintenance of a 600 MW / 1800 MWh Battery Energy Storage System (BESS).

The order represents the largest BESS order secured by the Company to date. The scope of work includes BESS system supply, system integration, installation, testing, commissioning, civil works and 15-year operations & maintenance. The awarded scope encompasses Block-01 (300 MW / 900 MWh) and Block-02 (300 MW / 900 MWh) under Cluster-01 of the flagship 3300 MWh BESS Project at NTPC REL Khavda Solar Plant in Gujarat.

The Company continues to strengthen its presence across India's energy storage ecosystem through project execution for leading central nodal and state utility agencies. Following this landmark order win, the Company's cumulative order inflows for FY2027 have reached Rs. 5,129 crore, elevating its total executable order book to Rs. 13,427 crore, supported by a consolidated BESS project portfolio of 6.62 GWh across EPC and BOO/BOOT models.

Meeting the Class-I Local Supplier criteria (minimum 50% value of goods, services and works) was an important factor in securing this order. Pace Digitek Group's investments in localisation, supported by 5 GWh of operational domestic BESS manufacturing capacity and its in-house container fabrication facility, strengthened its competitiveness in the bidding process.

Commenting on the development, Mr. Venugopalrao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said: *"Winning this landmark BESS order is a validation of Pace Digitek's manufacturing scale, engineering depth and project execution capabilities. As a Class-I Local Supplier under domestic value addition guidelines, this award highlights the crucial role of local content and domestic manufacturing in advancing India's energy storage goals.*

We have invested ahead of demand in expanding our manufacturing capacity, strengthening our project execution capabilities and developing greater manufacturing integration. With 5 GWh of capacity operational and our expansion towards 10 GWh progressing, we have built the manufacturing infrastructure to support growing market requirements. Our experience in supplying BESS systems and executing utility-scale storage projects provides a strong foundation for delivering this project.

We remain focused on translating the growing demand for energy storage into sustainable business growth through manufacturing scale, execution discipline and a balanced portfolio of supply, EPC and long-term projects."

About Pace Digitek Limited

Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) is an integrated infrastructure and energy solutions company operating across the Energy and Telecom business segments. The Company operates across the value chain, spanning Manufacturing, Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) activities, supporting both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, system integration and deployment. Through its subsidiary, Lineage Power Private Limited, the Company manufactures energy storage systems and related power infrastructure products.

In the Telecom segment, the Company manufactures telecom power systems and delivers EPC and O&M services for telecom infrastructure, fibre networks and digital infrastructure projects across India.
