Press Release
Jaipur, 26th May, 2025

Rajputana Biodiesel Limited (RAJPUTANA)

Robust financial and operational performance for FY 25

Dear Valued Investors,

The company has delivered strong results, driven by healthy revenue growth, resilient margins, and strategic initiatives that lay a solid foundation for sustained future growth.

Key Financial Highlights for FY25 (Full Year) Performance:

- Total Consolidate Income: Rs. 6860.79 Lakhs, up by 27% approx. from last FY24
- Consolidate EBITDA Margin: FY25 15.11% as compared to 14.51% in last FY24
- Consolidate Profit After Tax (PAT): Rs. 591.99 Lakhs, up by 29% approx. from last FY24

Key Operational Highlight:

- Received orders of approx. Rs. 51 crores for April 2025 – July 2025 from the OMC'S
- Enhanced production capacity of subsidiary from 16 KLPD to 80 KLPD
- Initiating the process for Capacity enhancement at Phulera unit from 24 KLPD to 90 KLPD
- Technical upgradation, de-bottlenecking and reengineering work under process at both biodiesel units for utilisation of a wider base of local indigenous feedstocks
- Received approval for establishing two units of compressed biogas (CBG) of capacity 5 tons per day in Rajasthan
- Was allotted 22,643 carbon credits for September 1st, 2022 to June 30th, 2024 bringing the total issued carbon credits to 29,764 as on date

Commenting on the results, Mr. Sarthak Soni, Managing Director of Rajputana Biodiesel Limited, said:

"We are pleased to report a strong year of performance, marked by a revenues increase of over 27% and year on year net profits growth surging of nearly 29%. These results reflect the successful execution of our integrated strategy, which emphasizes sustainability, a diversified customer base, enduring client relationships, and operational excellence.

Our broad-based customer portfolio comprising both government Public Sector Undertakings (PSUs), including Oil Marketing Companies (OMCs), and private sector clients was instrumental in driving robust growth during FY25. While anticipated revenues from government PSUs were impacted in the second half of FY25 due to the cancellation of a previously awarded government

tender in November 2024, we were able to sustain momentum through our private sector engagements.

Following a comprehensive evaluation of the long-term roadmap for the biodiesel blending program, OMCs issued a new tender for biodiesel procurement on March 13, 2025. This initiative is aligned with the strategic objectives of India's National Biofuels Policy, 2018, and supports the nation's biodiesel blending targets.

We are pleased to announce that the supply process under the newly awarded biodiesel contracts has officially commenced. This development presents a significant growth opportunity for Rajputana Biodiesel Limited and its subsidiary, Nirvaanraj Energy Private Limited, enabling us to further enhance our revenue streams and expand our market footprint.

The biodiesel sector in India continues to gain strong policy backing and commercial momentum. In alignment with the nation's clean energy objectives, we remain fully committed to contributing meaningfully to the transition toward sustainable energy. Our production facilities at Phulera and Meerut operated at healthy utilization levels throughout the year, reflecting the strength, resilience and stability of our operations."

Looking ahead, the Company will continue to:

- **Strengthen our backward integration to ensure sustainable feedstock sourcing;**
- **Expand our current production capacity;**
- **Monetising the carbon credits and**
- **Tapping the export opportunity in biodiesel and marine bunker fuel market (Europe and GCC)**

Our Initial Public Offering (IPO) in 2024 marked a significant milestone, affirming investor confidence in our strategic vision and providing the capital necessary to drive our next phase of growth and expansion.

In line with our commitment to innovation and sustainability, we have made a strategic entry into the high-margin Compressed Biogas (CBG) segment. This move is set to accelerate our growth trajectory, enhance profitability, and further diversify our renewable energy portfolio.

We extend our sincere thank our shareholders, employees, and partners for their continued trust and support. Their unwavering belief in our mission has been instrumental in our success.

With a strong foundation and a clearly defined growth strategy, Rajputana Biodiesel Limited is well positioned to drive long term value creation and play a leading role in India's transition to sustainable green energy transformation.
