PRESS RELEASE

Rajputana Biodiesel Receives Approval for 18 TPD Compressed Biogas Project in Ajmer

Jaipur, 27 November 2026- Rajputana Biodiesel Limited (NSE: RAJPUTANA) announced that its wholly owned subsidiary, **Arvant Bioenergy Private Limited**, has received a fresh approval from **Rajasthan Renewable Energy Corporation Limited (RRECL)** to set up a **Compressed Biogas (CBG) Plant in Ajmer district, Rajasthan**. The plant has an approved production capacity of **18 tonnes per day**.

The company's year-round feedstock supply arrangements and the advanced machinery and technology it plans to install support the project's 18 TPD capacity. The company sees scope to use the same approach as it explores opportunities to establish additional CBG plants.

Speaking on the development, Mr. Sarthak Soni, Managing Director of Rajputana Biodiesel Limited, said, *"We are pleased to achieve this important milestone for our subsidiary, Arvant Bioenergy Private Limited, with the approval for the establishment of an 18 TPD Compressed Bio Gas (CBG) project in Ajmer, Rajasthan. This development represents a significant step forward in strengthening our presence in the renewable energy sector and advancing our vision of building an integrated bio-energy business.*

The project aligns with our long-term growth strategy of expanding our footprint in the clean energy ecosystem, leveraging the growing opportunities in India's CBG sector and contributing towards the nation's sustainable energy transition. We look forward to progressing with the necessary statutory approvals and subsequent implementation of the project. We remain committed to creating long-term value for our stakeholders while contributing to a greener and more sustainable future."

About Rajputana Biodiesel Limited:

Rajputana Biodiesel Limited is engaged in the manufacturing of biodiesel and its by-products and is one of the key players across the state of Rajasthan in India. The Company focuses on green energy (biofuel) and sustainable development of renewable resources through the adoption of environmentally friendly technology.

It's manufacturing unit at Phulera (Jaipur), Rajasthan has an approved capacity of producing 90 KL Bio Diesel per day from multi feedstock. It has a subsidiary Company in the name of Nirvaanraj Energy Private Limited, situated at Meerut, Uttar Pradesh which has an installed capacity of producing 80 KL Bio Diesel per day from multi feedstock.
