Supreme Infra's Q2 Marks a Strong Financial Revival

- *Revenue surged 114.8% YoY, with Q2 marking the Company's first profitable quarter post-Scheme*
- *Finance costs declined 94.7% QoQ as the Composite Scheme completed and net worth turned positive*
- *Going concern as a matter of emphasis no more continued by the auditors.*
- *Positive EPS*
- *Company is debt free as on date*

Mumbai, November 13, 2026: Supreme Infrastructure India Limited has reported a strong improvement in its financial performance for the second quarter of FY27, marking its **first profitable quarter post-Scheme** and another significant milestone in the Company's financial revival. The quarter reflects a sharp improvement in revenue and profitability, alongside a substantial reduction in finance costs and continued strengthening of the Company's balance sheet.

The Company's Q2 FY27 performance reflects strong operational momentum, with **revenue from operations increasing 114.8% year-on-year to ₹2,900.42 lakh from ₹1,350.24 lakh in Q2 FY26**, while **total income increased 130.3% to ₹3,356.27 lakh from ₹1,355.58 lakh**. The strong growth in revenue and income, coupled with a significant reduction in finance costs, enabled the Company to return to profitability during the quarter.

The Company reported a **profit after tax of ₹367.79 lakh in Q2 FY27**, compared with a loss of ₹5,914.31 lakh in Q1 FY27. This represents a **₹62.82 crore sequential turnaround in profitability**, marking the Company's first profitable quarter post-Scheme and demonstrating the significant improvement in its financial performance.

A key driver of the turnaround was the sharp reduction in the Company's finance-cost burden. **Finance costs declined 94.7% quarter-on-quarter to ₹313.06 lakh from ₹5,959.94 lakh in Q1 FY27, and were down 98.0% year-on-year from ₹15,535.72 lakh in Q2 FY26.** The substantial reduction in financial charges has materially strengthened the Company's profitability and reflects the progress made through its financial restructuring and debt-resolution initiatives.

The Company's financial revival was further strengthened by the **completion of its Composite Scheme on October 31, 2026**. The implementation of the Scheme has resolved the Company's legacy debt issues, with **all charges on the Company's assets released and guarantees of the Promoters discharged**. The completion of the Scheme marks a significant step towards a stronger and cleaner balance sheet and provides the Company with greater financial flexibility going forward.

The Company has also achieved a significant milestone on its balance sheet, with its **net worth moving from negative to positive territory**. This, together with the completion of the Composite Scheme and resolution of legacy debt issues, marks a critical transition in Supreme Infrastructure's financial revival and strengthens the foundation for its next phase of growth.

The Company also continued to make progress on cash collections, with **more than ₹4 crore recovered from old debtors during the July–September 2026 quarter**. The recovery reflects the

Company's continued efforts to unlock value from legacy receivables and strengthen its cash position, complementing the progress made on its balance sheet.

Commenting on the results, Vikram Sharma (Managing Director), Supreme Infrastructure India Limited, said:
"Q2 FY27 marks a significant milestone in Supreme Infrastructure's turnaround journey, as we delivered our first profitable quarter post-Scheme. The strong growth in revenue, sharp reduction in finance costs and improvement in profitability demonstrate the progress achieved through our financial restructuring initiatives. With the Composite Scheme now completed and our legacy debt issues resolved, we have a stronger platform to consolidate this progress. Our focus remains on improving operational efficiency, strengthening cash generation and building a sustainable growth platform for the Company."

With the balance sheet strengthening, finance costs declining and legacy debt issues resolved, Supreme Infrastructure is focused on building on the momentum achieved during the quarter. The Company will continue to pursue operational efficiencies, disciplined financial management, stronger cash collections and growth opportunities across the infrastructure sector.
The Q2 FY27 performance marks an important transition for Supreme Infrastructure — from addressing legacy financial challenges to **building a stronger balance sheet, improving profitability and positioning the Company for sustainable growth.**
About Supreme Infrastructure India Limited
