# Company Overview

# Supreme Power Equipment @ Glance

Supreme Power Equipment Limited (Supreme, SPEL, The Company), a Tamil Nadu-based company founded in 1994, has been operating in this field for three decades, manufacturing a wide range of Power and Distribution transformers. It has emerged as a prominent supplier of transformers to local electric utilities.

The company's foray into the windmill segment was characterized by innovative design, precisely meeting the stringent technical specifications demanded by customers. Their expertise lies in crafting transformers specially engineered to withstand frequent switching, voltage fluctuations, and efficiently transferring power from windmill generators to the grid. Renowned for their quality and reliability, the company's transformers are operational at multiple sites.

The Company got listed on NSE Emerge Platform on 29th December 2023

## Mission

The Company strives to achieve Customer Satisfaction through providing quality products effectiveness of the quality management system. at the right time.

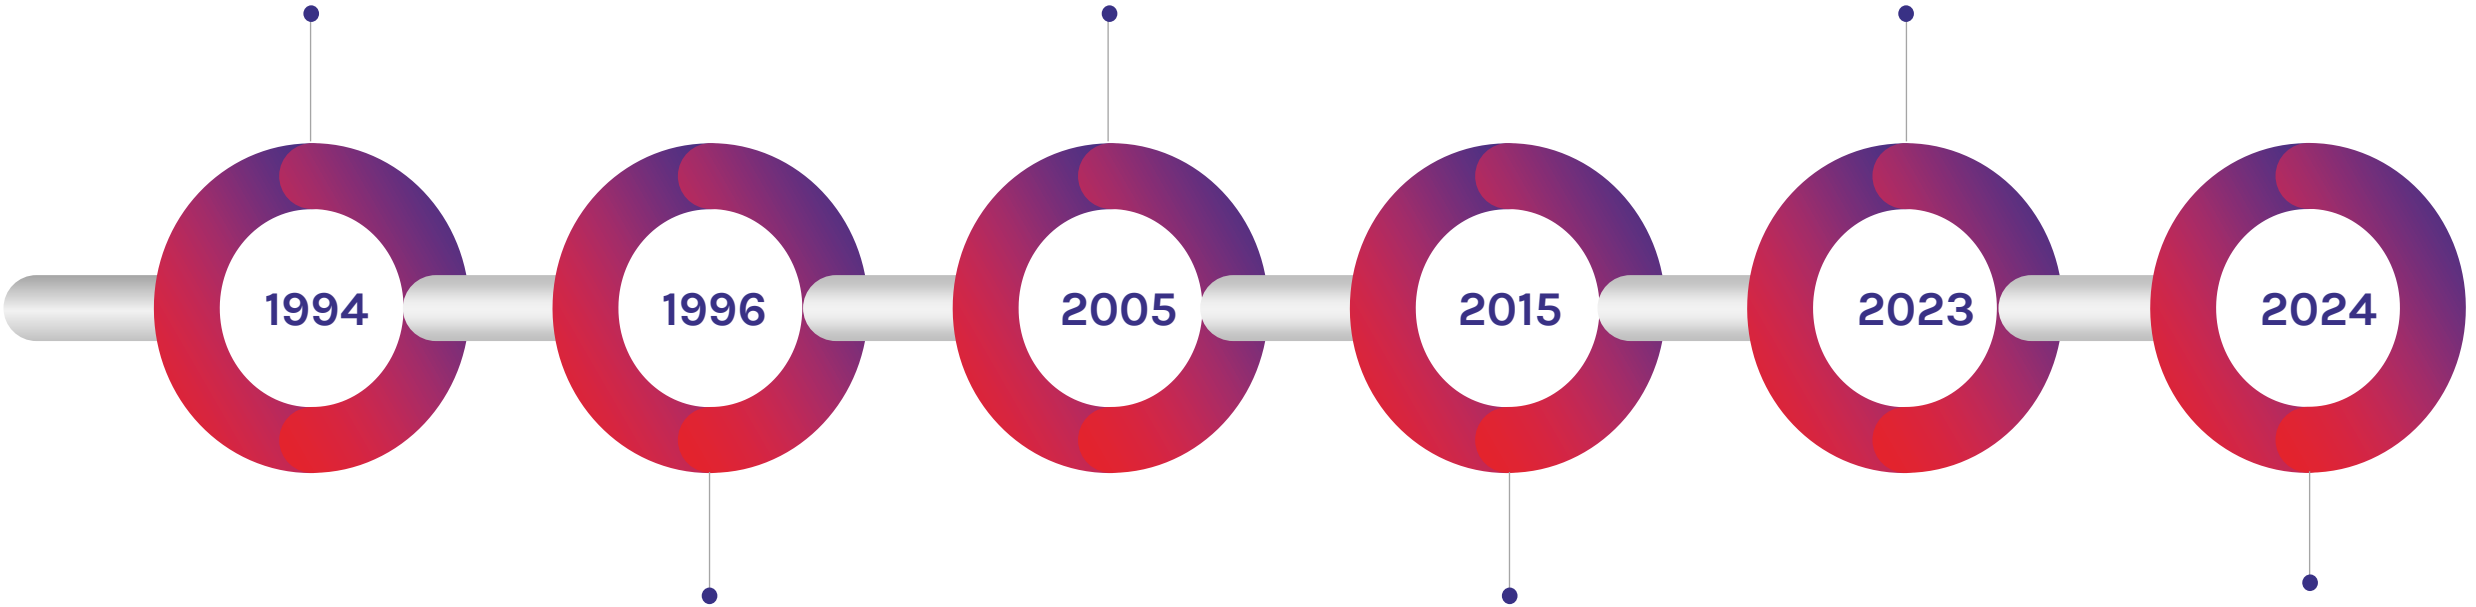

## Vision

The Company aims for 100% delivery performance on a continual basis. Work towards achieving nil rejection at customer end.

## Key Facts

CERTIFICATE

The Certification Body
of TÜV SÜD South Asia Private Limited
certifies that

Supreme Power Equipment Limited
No.55, SIDCO Industrial Estate, Thirumazhisai
Chennai - 600124, Tamil Nadu, India

has implemented Quality Management System
in accordance with ISO 9001:2015
for the scope of

Design, Manufacture, Service and Supply of Transformers

The certificate is valid from 2021-09-15 until 2024-09-14
Subject to successful completion of annual periodic audits

Certificate Registration No. 99 100 14188
Date of Initial certification: 2013-02-01

# SPEL's Pillars Of Success

# Business Overview

# Engineered Excellence: A Spectrum Of Transformers Manufactured By SPEL

## Power Transformer

Power transformers are vital components in electrical power systems, serving several crucial functions to ensure transmission, of electrical energy.

## Generator Transformer

Generator transformers are vital components in power generation plants, ensuring that electricity generated by various sources is efficiently transformed and transmitted to the electrical grid.

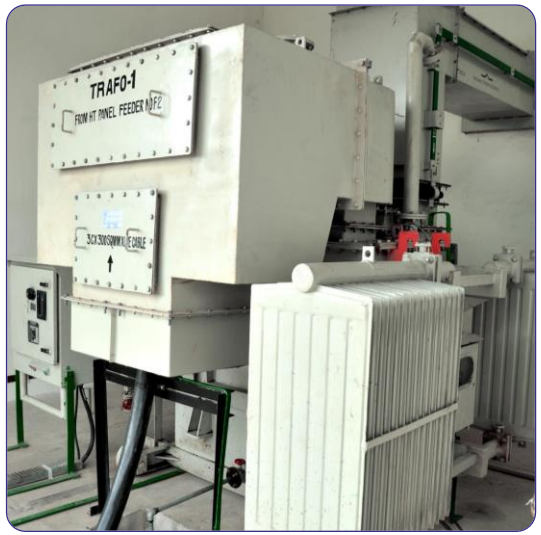

## Windmill Transformer

Windmill transformers play a vital role in ensuring that electricity generated by wind turbines is efficiently transformed and integrated into the electrical grid, contributing to the growth of renewable energy and the reduction of greenhouse gas emissions.

# Engineered Excellence: A Spectrum Of Transformers Manufactured By SPEL

## Distribution Transformer

Distribution transformers are vital components in the electrical distribution system, ensuring that electrical power is delivered safely, efficiently, and reliably to homes, businesses, and industries

## Isolation Transformer

Isolation transformers are essential for electrical safety, noise reduction, and interference elimination in a wide range of applications and industries, it ensures the protection of both equipment and personnel, making them a crucial component in various electrical systems.

## Solar Transformer

Solar transformers are critical components in solar energy systems. Their role in ensuring compatibility with the grid is essential for the widespread adoption of solar energy in residential, commercial, industrial, and utility-scale applications.

# Engineered Excellence: A Spectrum Of Transformers Manufactured By SPEL

## Energy Efficient Transformer

Energy-efficient transformers are designed to minimize energy losses used for transmission and distribution of electrical power. They offer several benefits, including improved efficiency, lower operating costs, and a smaller environmental footprint.

## Converter And Rectifier Transformer

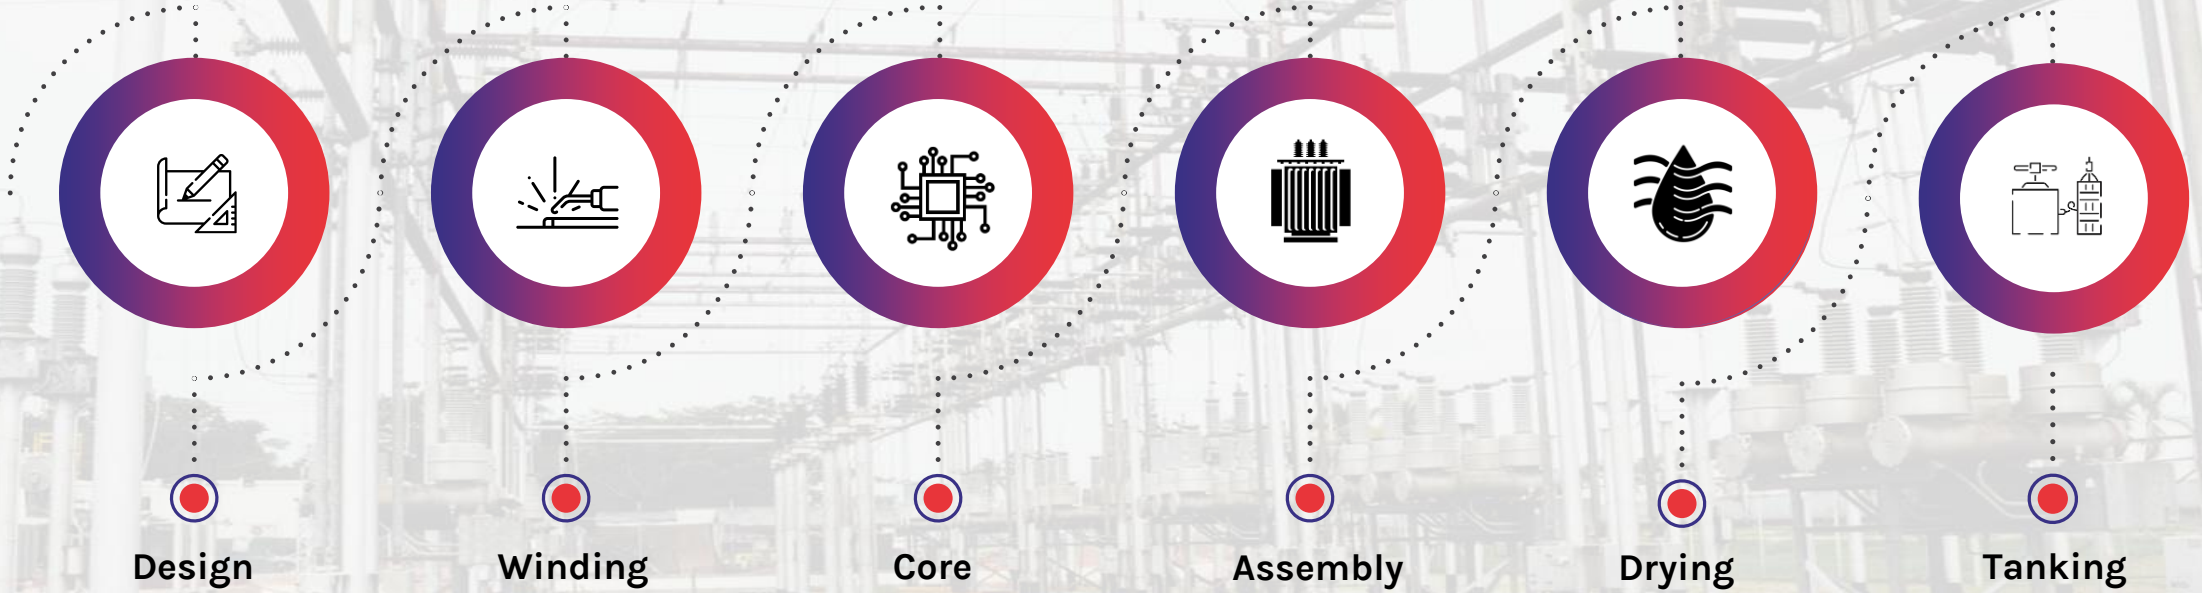

Converter transformers and rectifier transformers are specialized devices that facilitate the conversion of electrical power between different voltage levels.

## Tanks & Accessories Of Transformers

Oil Cooled Transformers are designed to be housed inside metallic tanks which are structurally robust enough to withstand full vacuum during processing of transformers, oil pressure and concentrated point loads of lifting, hauling, jacking etc.

# Management Overview

# Board Of Director's

## Vee Rajmohan

Chairman And Managing Director

He has delved deep into the intricacies of electrical transformers, manufacturing, and applications.

With an extensive and storied career, he has gone beyond the drawing board, overseeing the manufacturing process and ensuring adherence to stringent industry standards and exacting quality control protocols.

This seasoned expert is well-versed in navigating the complex landscape of industry regulations and commercial and finance standards on a regional level to ensure compliance and product excellence.

## Vishwambran Nair Pradeep Kumar

Whole Time Director

He is a Technocrat holding Bachelor's Degree in Engineering with a vast experience of more than Three Decades in this field and has handled Power Transformers upto 100MVA/230KV.

He has expertise in all sectors such as Procurement, Production, Planning, Marketing etc.

## Devaraja Iyer Krishna Iyer

Non-Executive Non-Independent Director

He is experienced in the field of High Voltage Large Capacity Power Transformers, EHV SF6 gas circuit breakers, instrument transformers, bus ducts, EHV switchyards, and has received training with Hitachi in Japan and AREVA in Germany.

He has 46 years of experience in Electrical Power Systems, especially in Transformer Design and Production.

He has served TELK, Angamally, Keralla in various positions from Trainee Engineer to AGM from 1977-2007. From 2007 to 2011, he served as General manager, Design- AREVA, Naini and as Vice President-ECE Transformers. Sonapet from 2011-2012. He was the plant head in Prime Meiden Transformers- Naidupet, Andra Pradesh from 2012-2019.

**Perumal Ravikumar**
Independent Director

He has 33 years of rich and combined expertise in Talent Acquisition, Performance Management, Employee Relations, The driver of strategies & Business plans, Quality Sourcing, Administrative& People Management, Handling PAN INDIA [36 states] & ASIA -PACIFIC Region.

He holds Certifications 10 Years in Indian Insurance Industry.

**Saimathy Soupramanien**
Independent Director.

She is a LLM from Pondicherry university, and a Associate member of Institute of Company Secretaries of India (ICSI).

She has more than 25 years of work experience as an Advocate and Company Secretary.

She has been practicing as a Company Secretary for more than 10 years, accumulating rich knowledge in legal, accounting, finance, and taxation.

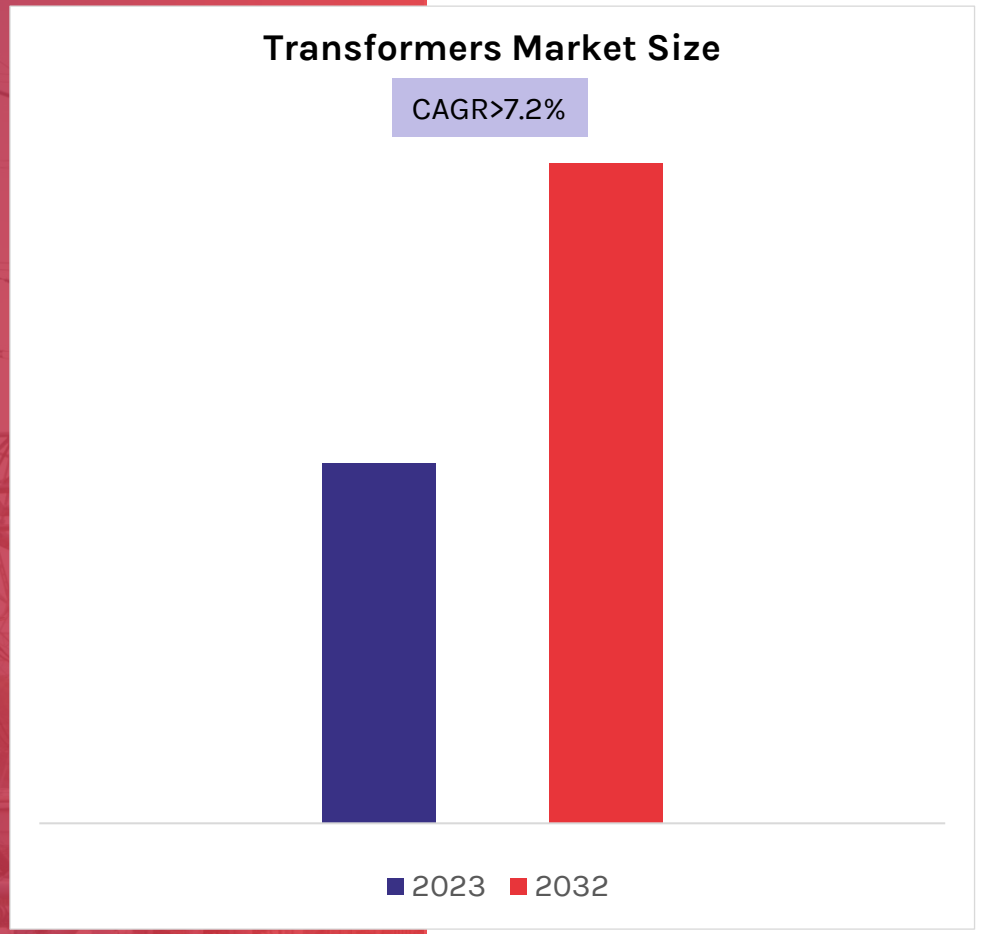

# Industry Overview

# Energizing the Globe: Transformer Market's Global Rise

**Transformer Market size is anticipated to grow at a CAGR of 7.2% between 2023 and 2032.**

- Transformer Market size is valued at USD 54 billion in 2022 and is anticipated to grow at a CAGR of 7.2% between 2023 and 2032.
- Large scale integration of renewable energy sources coupled with increasing electrification programs primarily across the emerging economies will accelerate the industry scenario.
- Expanding urban infrastructure to proliferate product demand for commercial & industrial applications Power transformer market from the commercial & industrial applications segment is expected to exhibit nearly 7% growth rate between 2023 and 2032.
- The global power transformer market size was valued at $27.7 billion in 2019, and is expected to reach $50.8 billion by 2027, registering a CAGR of 7.9% from 2020 to 2027.

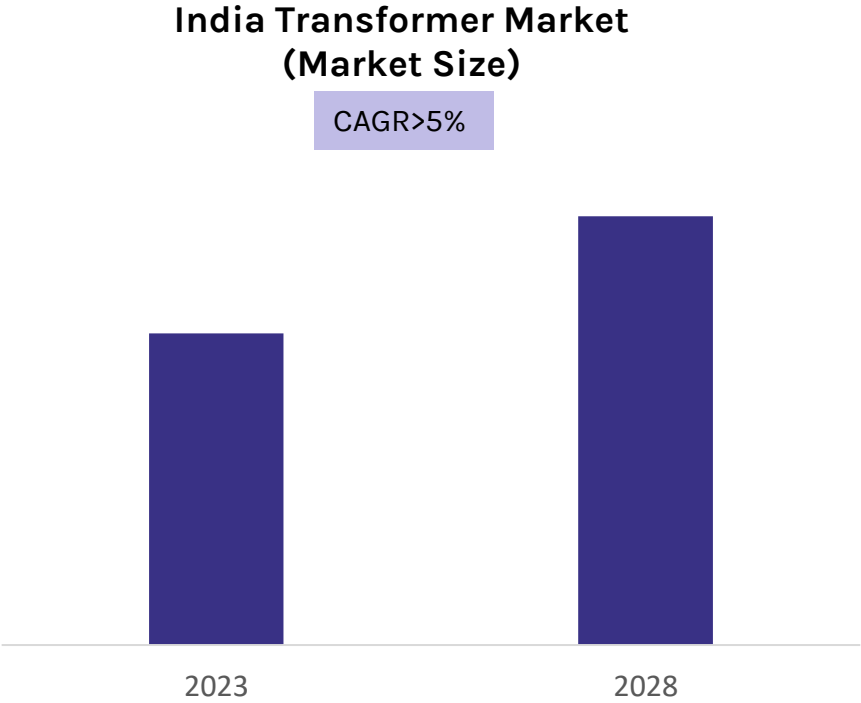

Source- alliedmarketresearch, gminsights

# Empowering India's Future: Transforming the Transformer Industry

### Indian Transformer Market Size

- The India transformer market is expected to rise at a CAGR of more than 5% during the forecast period.
- The Transformer market in India can be pegged at more than INR 12,000 Crores. Power Transformers contribute 45 percent of the total market and distribution transformers, 55 percent.
- Anticipating the huge domestic, requirement of power sector expansion and overseas demand, the transformer industry in India has more than doubled its manufacturing capacity over the last five years.
- Transformer manufacturing capacity in India stands at ~370 GVA with capacity utilization rates hovering around 60- 70 percent on an average over the last 5 years.

## Power Sector

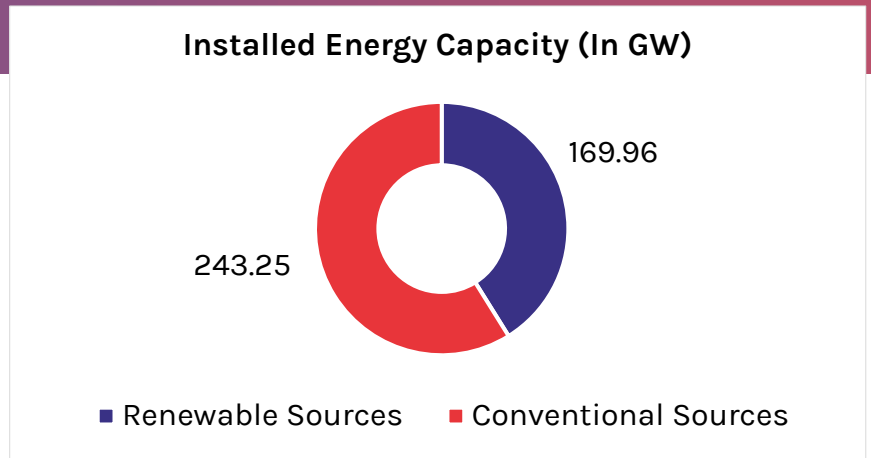

- India is the third-largest producer and consumer of electricity worldwide, with an installed power capacity of 429.96 GW as of January 31, 2024.
- India's power generation witnessed its highest growth rate in over 30 years in FY23. Power generation in India increased by 6.80% to 1,452.43 billion kilowatt-hours (kWh) as of January 2024.
- According to data from the Ministry of Power, India's power consumption stood at 1,503.65 BU in April 2023.
- The peak power demand in the country stood at 243.27 GW in January 2024.

Source- ibef, mordorintelligence

# Empowering India's Grid: Transformer Market Thrives in 2023-24.

## Capacity Augmentation Boosts Demand

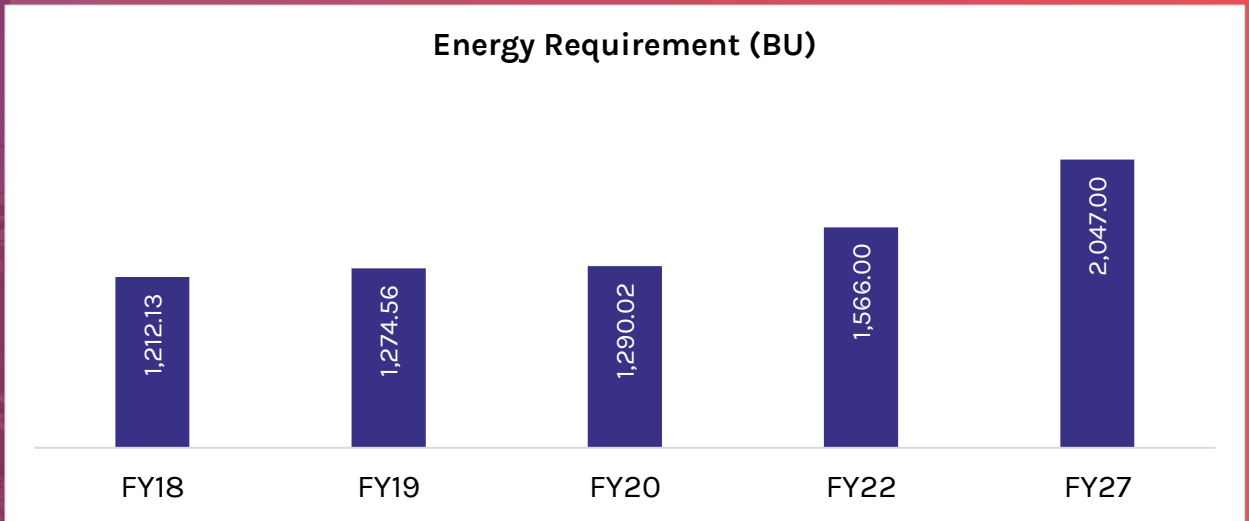

India's power generation target is estimated to be 1,750 BUs in FY24, up from 1,624.15 BUs of actual generation in FY23.
Industrial sector is the largest consumer of energy consuming about 50% of the total commercial energy produced in the country followed by the transport sector.

## Attractive Opportunities

In the Budget for 2024, the government's power sector initiatives have been allocated funds that are 50% higher. Increased funds have been allocated to green hydrogen, solar power, and greenenergy corridors in line with the renewable energy target for 2030.

To meet India's 500 GW renewable energy target and tackle the annual issue of coal demand supply mismatch, the Ministry of Power has identified 81 thermal units which will replace coal with renewable energy generation by 2026.
