Press Release

NALCO Signs MoU with RUSAL for Collaboration in Scandium Recovery from Red Mud

Bengaluru/Bhubaneswar, 18.11.2026: National Aluminium Company Limited (NALCO), the Navratna CPSE under the Ministry of Mines, Government of India, has signed a Memorandum of Understanding (MoU) with the RUSAL for collaboration in the recovery of the critical mineral Scandium from Red Mud. The MoU was signed on the sidelines of the 44th International Conference and Exhibition ICSOBA 2026 being held in Bengaluru on 17th November 2026. The signing took place in the presence of Shri Brijendra Pratap Singh, CMD, NALCO, Shri Jagdish Arora, Director (Projects & Technical), NALCO, Mr. Viktor Mann, Technical Director, RUSAL, and other senior officials of both organisations.

As India intensifies efforts towards securing strategic mineral resources for emerging technologies and clean energy applications, the partnership is expected to facilitate knowledge exchange and evaluation of viable pathways for scandium recovery from Red Mud. Worth mentioning that RUSAL is among the leading company in the global aluminium industry and the world's largest producer of low-carbon aluminium, has developed technology for the extraction of scandium from red mud, a by-product generated during alumina production, thereby presenting valuable opportunities for technology sharing and cooperation in the critical minerals sector.
